NON FERROUS ALLOYS

- Nickel Aluminium Bronze
- Copper Nickel Alloys

- Possibility to cast Bronze or Brass (to study case by case)

Dedicated alloys for:
- Low temperatures
- High grinding
- Wear resistance
- High corrosion resistance
- Non-magnetic applications
- Very high mechanical properties
- Stamping equipment
- Forging equipment

SAND CASTING

- Up to 50 tons

MACHINING & WELDING ASSEMBLY

- INOXYDA Foundry supplies as-cast, rough or finish machined parts.

Since its origin in 1924, INOXYDA has continued to develop, particularly in export activities. INOXYDA works closely with its customers, utilizing our expertise, know-how and Aluminum Bronze application experience, toward recommending tailor-made and economical solutions. The excellent mechanical properties provided by the use of Nickel Aluminum Bronze, especially in terms of corrosion and sea water resistance, permits INOXYDA to supply divers types of products:

- Spectrometry - Mechanical testings - Micrography
- LP Tests - US Tests - X-Ray
- ISO 9001:2008
- Agreements : RINA / TÜV / LR / DNV-GL / ABS / BV
- AD2000.W0 - PED (97/23/EC)
